SHONEN JUMP GRAPHIC NOVEL

Story & Art by

Akira Toriyama

volume 2

I am truly a bumpkin. Country livin', all the way. I never took much to the big city, where there's more people than trees!

No, it's the country for me...Mothra flitting in the spring, Gamera taking a walk along the sea in the summertime, Angirus in the fall, snowball fights with the mammoths in the winter... What the heck kind of country is this!? Morning has come to Penguin Village. My eyes still hazy with sleep, I grab the wheel and barely make it to the airport alive. Local produce, delivered straight to your door.

Whatever. Just read the manga!

—Akira Toriyama, 1980

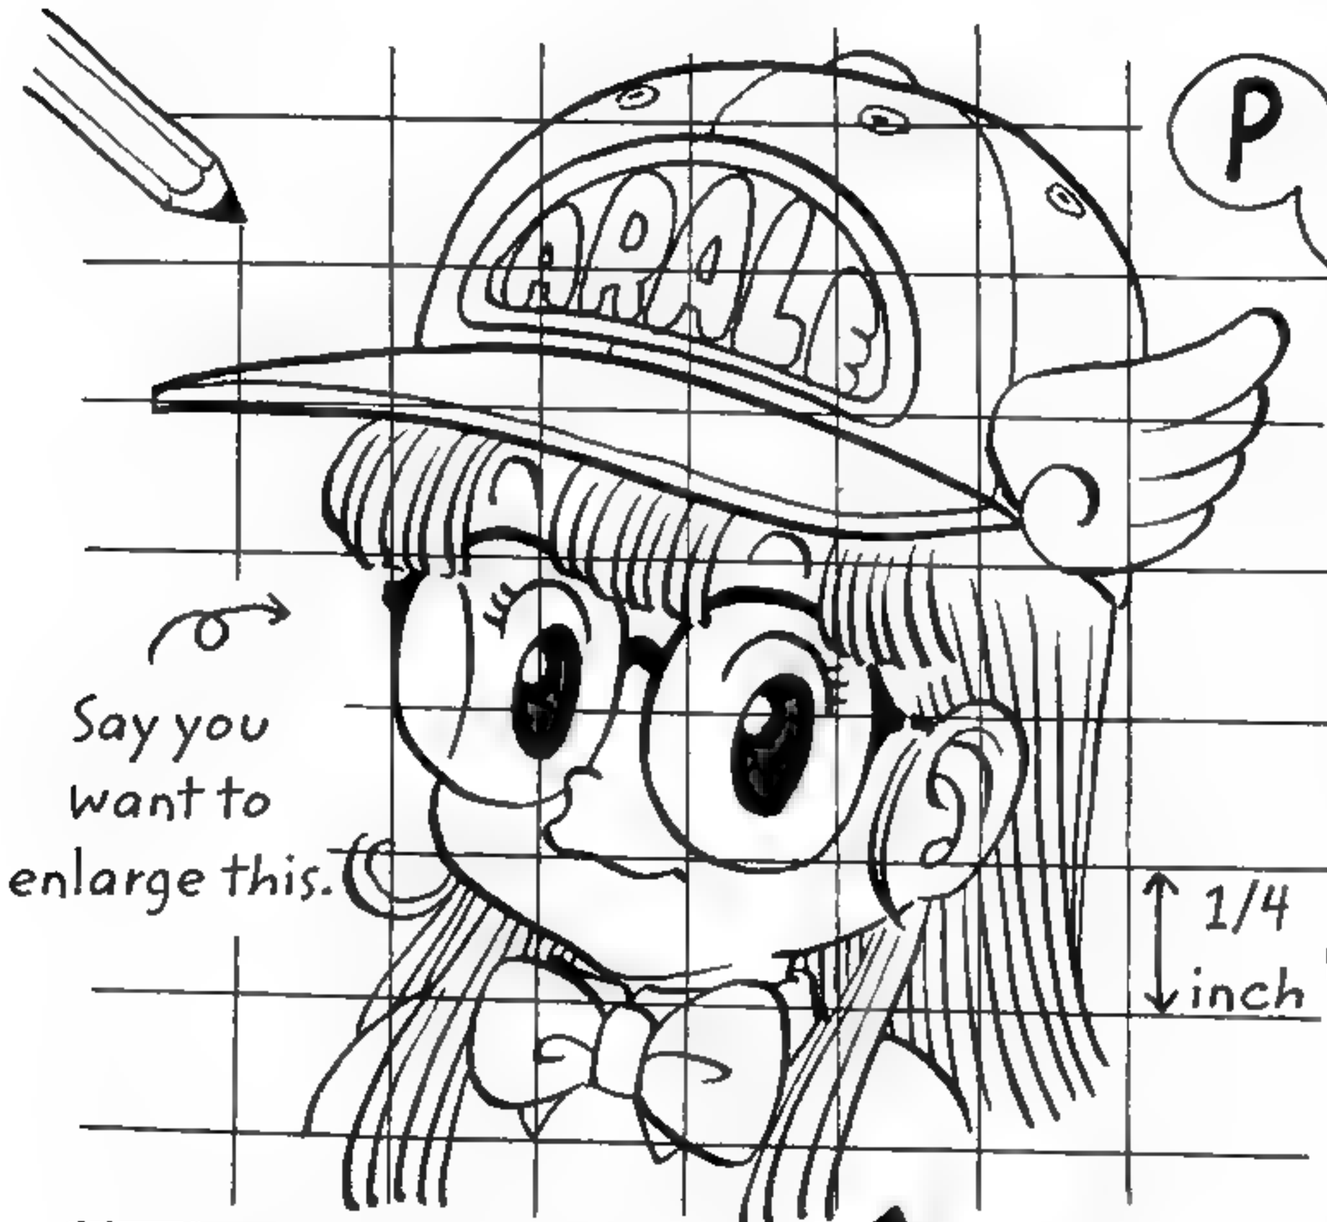
HOW TO ENLARGE A PICTURE!



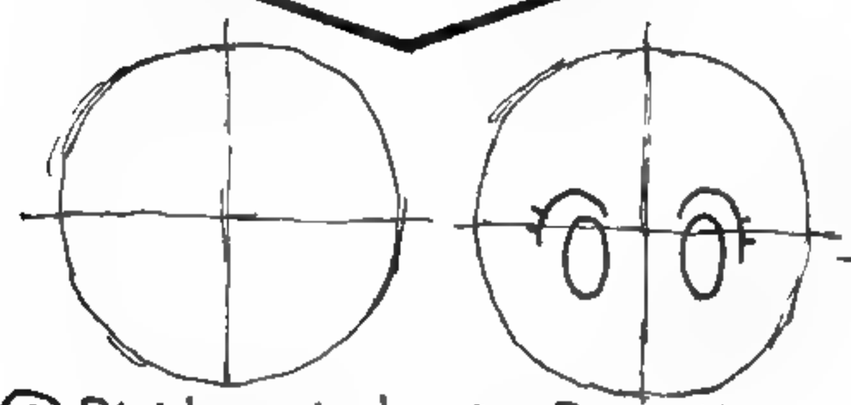
First, draw a grid over the picture you want to enlarge. Next, on a fresh sheet of paper, use a pencil to draw another grid. To make a picture two times as big, make the squares of the second grid twice as big!

⇨ (If your first grid is 1/4 inch:
1/4 inch x 2 = 1/2 inch)

Then, you use the original picture as a guide to tell you in which block to draw the nose, the eyes, etc. Use a pencil! Then when you're happy with your enlarged drawing, trace over it with a pen and erase the grid lines, and you're done! (Got that?)

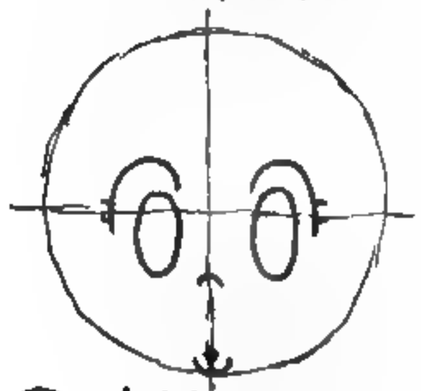
How to draw a simple Arale

Enlarged by two times!

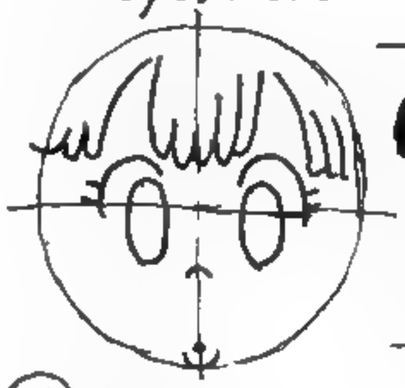


① Divide a circle in four.

② Draw the eyes here.

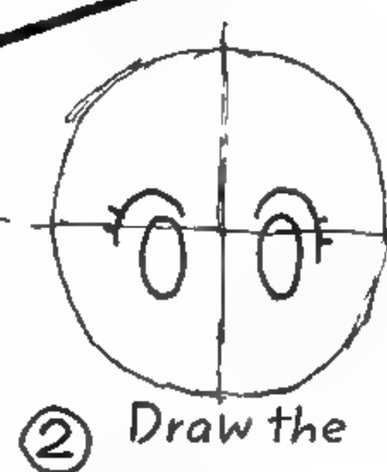


③ Add the nose and mouth.

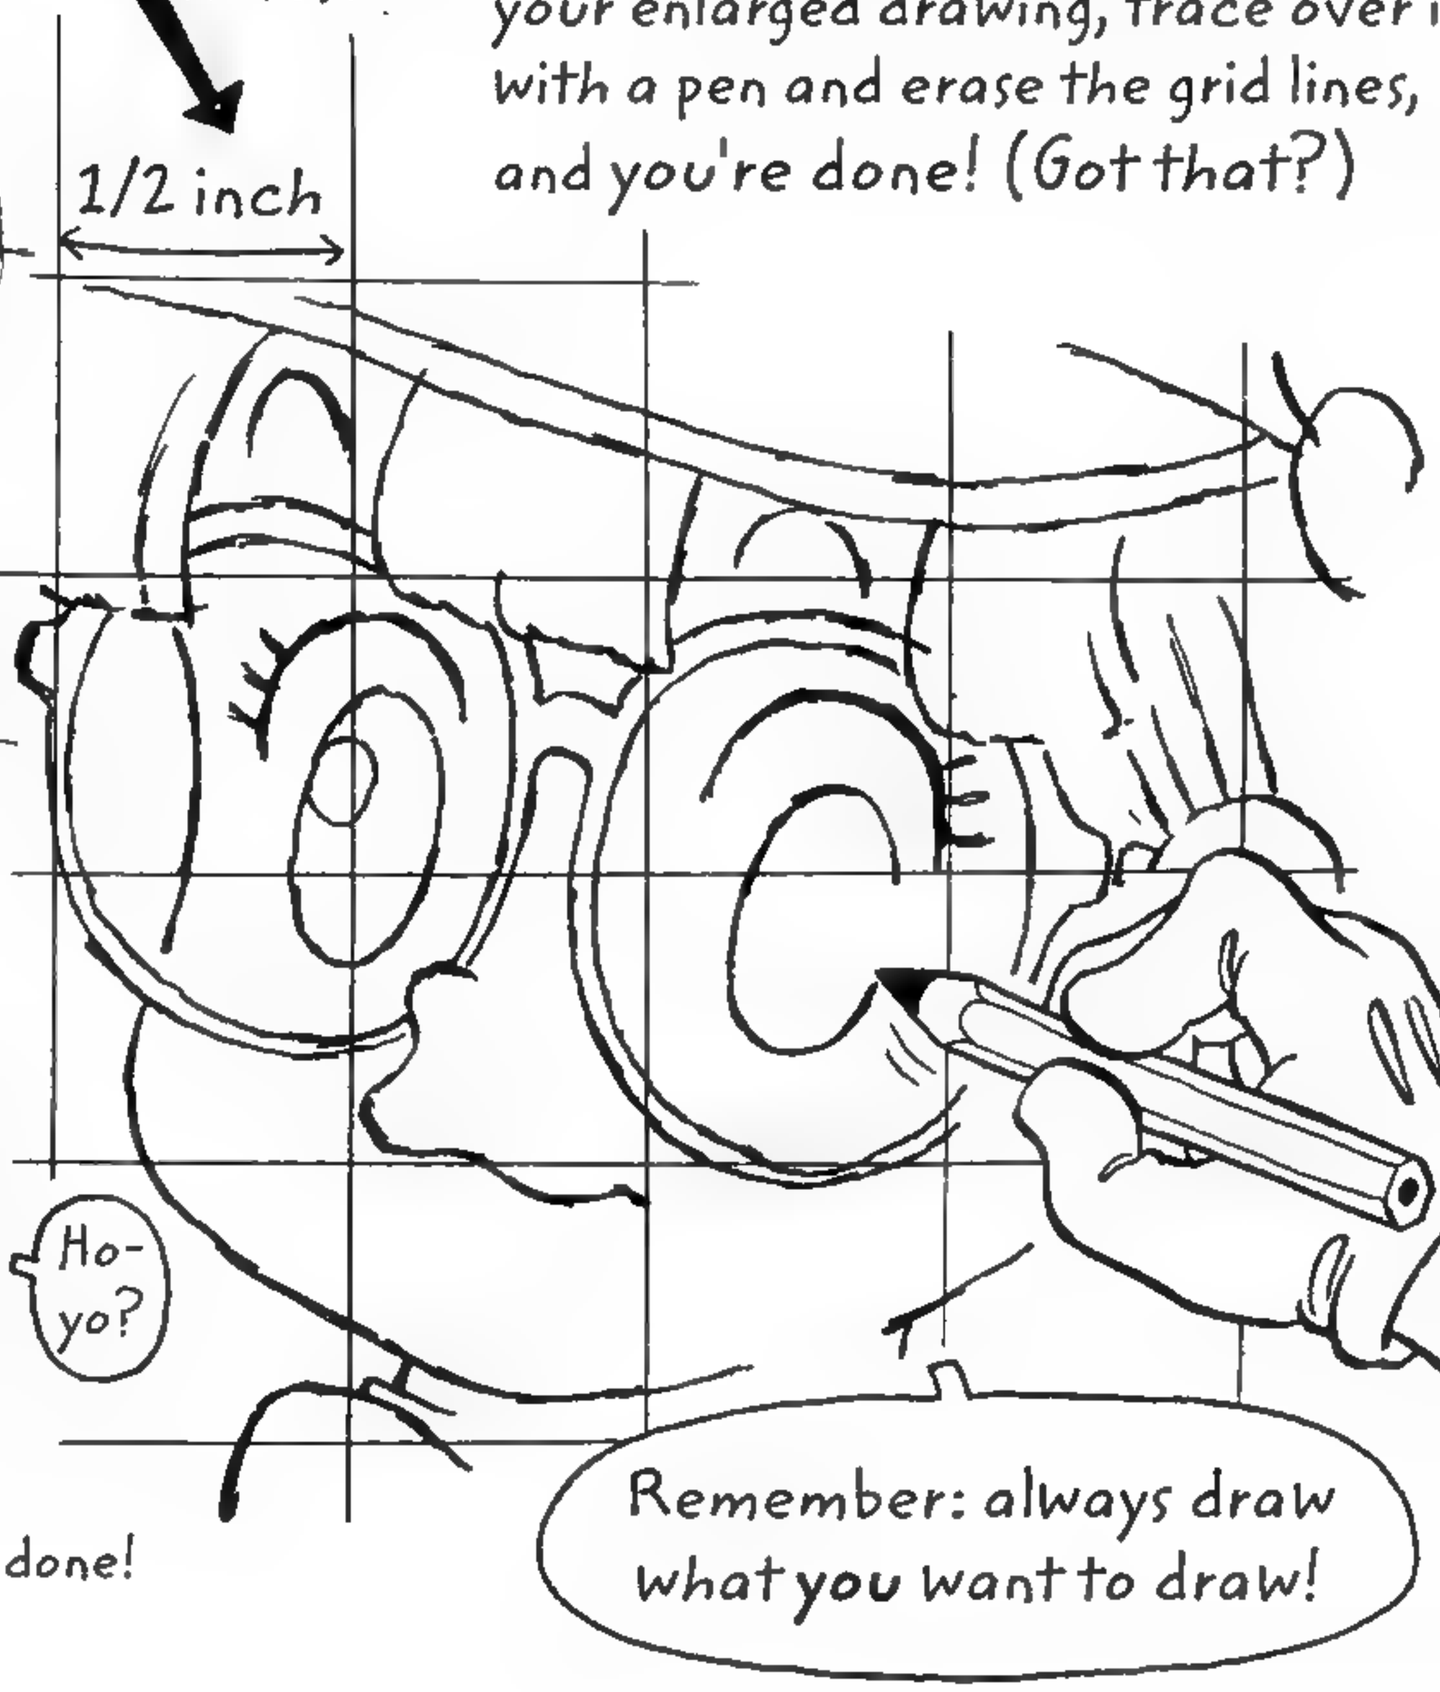


④ And the hair.

⑤ Draw the glasses and cheeks...



⑥ ...And you're done!



Remember: always draw what **you** want to draw!
